PUNLP is an organization that aims at bringing changes of betterment that every human being aspires. In life, lots of people know what to do, but very few people do what they know. Knowing is not enough! One must act; one must take a step forward or move in the direction one wishes to go with definite aim in mind. Our innovative approach helps bring clarity to your current situation while empowering you with the tools to move forward. Let it be the students, professionals, businessmen, housewife or any other person from any other walk of life. Failure, frustration, depression, illness, broken relationship, suicidal tendencies etc. have become very common. As a result, we see so much of human misery, not just in mentally ill people but also in the normal / healthy person. It is also seen that high functioning, relatively successful people are also unhappy. Quite often, pain and misery are unnecessary and finally end when people take charge of their beliefs, feelings and actions in order to modify the process of their lives. Empowering people to realize that they determine the outcome of their own lives is not always easy. In fact, it's usually an overwhelming task. Our organization aims at giving you the means to make alterations in your own values, rules and controls that will allow your lives to become much more productive and fulfilling. Our effort would be to provide arsenal of tools for lasting change as well as lessons for enriching the quality of life.
